

Best Young Investigator Awards

Dr. Guo Wei (China)

Prognostic significance of perihematomal edema in basal ganglia hemorrhage after minimally invasive endoscopic evacuation

Dr. Christopher Sum (HKSAR)

Revascularization strategies in intracranial atherosclerosis-related occlusions and cerebral blood volume (CBV) index as a novel predictive parameter on CT perfusion scan

Dr. Yi-Ying Lu (China)

Predicting stroke and myocardial infarction risk in Takayasu arteritis with automated machine learning-based models

Dr. Pei Ling Choo (Singapore)

Loneliness and social network satisfaction in stroke survivors

Best Free Paper Presentation Awards

Dr. Shin Shin Lee (HKSAR)

Microglia polarization and inflammatory response modulation in recurrent intracerebral hemorrhage: insights from a mouse model study

Dr. Zong Zhuang (China)

Hydrogen plays a neuroprotective role by inhibiting the neuroinflammation after subarachnoid hemorrhage

Prof. Li He (China)

Fibrinogenase for injection in the treatment of acute ischemic stroke - a randomized double-blind placebo-controlled study

Dr. Huiya Li (China)

Acute ischemia induces spatially and transcriptionally distinct microglial subclusters

Ms. Junqiu Jia (China)

Microglial Axl promoted ischemic white matter recovery through clearing myelin debris after stroke

Ms. Tsz Ching Lee (HKSAR)

Low LDL-C levels and the risk of recurrent intracerebral haemorrhage

Ms. Shuang Li (HKSAR)

High regional wall shear stress and leptomeningeal collateral status in symptomatic intracranial atherosclerotic stenosis

Dr. Nandhini Ravintharan (Australia)

RapidAI compared with human readers of acute stroke imaging for detection of intracranial vessel occlusion

Prof. Beom Joon Kim (Korea)

DWI lesion change and functional recovery after ischemic stroke

Dr. Presaad Pillai (Malaysia)

Is atrial fibrillation associated with higher first pass effect following thrombectomy for large vessel occlusion? DIRECT-SAFE secondary analysis

Best Poster Presentation Awards

Dr. Joyce Lo (HKSAR)

Safety and efficacy of intravenous tenecteplase for patients with clinical features suggestive of anterior circulation large vessel occlusion strokes without thrombectomy done

Mr. Tsi Lok Ho (HKSAR)

Towards casual exploration of the gut-cerebrovascular axis: sex-stratified mediatory analysis of Klotho between gut microbiome and 24-hour ambulatory blood pressure

Prof. Hyo Suk Nam (Korea)

Impact of vascular aging on outcomes after acute ischemic stroke

Dr. Hye-in Chung (Korea)

IV alteplase prior to endovascular treatment does not induce symptomatic hemorrhage but improves functional outcomes

Prof. Kang-Ho Choi (Korea)

Impact of antiplatelet strategy on outcome after embolic stroke of undetermined source

Dr. Xiang Cao (China)

Infiltrating myeloid cell-derived properdin markedly promotes microglia-mediated neuroinflammation after ischemic stroke

Dr. Shoichiro Ando (Japan)

Venous collagenosis in HTRA1-related cerebral small vessel disease

APSO Best Abstract Awards

Mr. Hardik Dineshbhai Desai (India)

Burden of stroke attributable to high systolic blood pressure in South Asia region from 1990-2019, and projections of deaths to 2040: a benchmarking systematic analysis for the global burden of disease study 2019

Prof. Sapna Erat Sreedharan (India)

Clinical, imaging and atrial cardiopathy markers in ischemic stroke subtypes - can we predict cardioembolic source?

Dr. Gabriel Alejandro Baroque (Philippines)

COVID-19 and stroke in the Philippines: a retrospective study

Dr. Guillermo III Manalo (Philippines)

Knowledge, attitudes and practices of stroke patients and caregivers in a tertiary rural hospital in Northern Philippines

Dr. Quyen Pham Thi Ngoc (Vietnam)

Risk factors For recurrent ischemic stroke: a single-center study In Ho Chi Minh City

Dr. An Nguyen T.T. (Vietnam)

Endovascular therapy versus medical management in minor acute ischemic stroke patients with large vessel occlusion in extended time window.

Dr. Diana-Lynn Que (Philippines)

RAPID automated software as an aid in decision-making in reperfusion treatment in acute ischemic stroke in the Philippines
